Sitting Depth:	17.5”

The Bainbridge Jr. was designed to be lighter, easier to handle and take less storage space than our other stackable chairs. This elegant Arts & Crafts design, built in Black Cherry, weighs in at a skinny 13 pounds, and will stack 10 high. Like all our chairs built with the proprietary Eustis Joint®, the Bainbridge Jr. carries a 20 year warranty against seat-joint failure, even in the rough-and-tumble function room environment.
