Our Empire stacking chair has the simple elegance of the Empire period in France, and yet is very durable and stacks up to 8 chairs high. While the Empire can seat 10 at a 60" round with all the chairs outside of the table cloth, we have designed the new 10-60 version for those institutions that prefer to push the chairs slightly under the table. The new chair has the same great looks and comfort as the Empire, but slightly down-sized in the front for additional dining uses.
