This custom chair was designed for the University of Nevada Reno, using design elements from our popular Charleston and Willard chairs, and some great ideas from their design committee. The RFP specified a chair that is “traditional and formal, comfortable, and exceptionally durable”, and that is just what they got. Built with our proprietary Eustis Joint[®], the Nevada carries a 20-year warranty against joint failure, and can be expected to give a 30-50 year service life.
