

Concerto

SPECIFICATIONS

Height: 37"
Seat Height: 17"
Width: 19"

We were asked by a university client to build an elegant wood stacking chair for their orchestra. We started with our lightweight Merrimac chair, and tipped it forward with a firmer seat to better suit the way orchestra musicians sit. And because the Concerto is engineered with our proprietary Eustis Joint®, there will never be even the smallest squeak when a performing musician moves in the chair.
