For their renovation of Boston's 100 year old Suffolk County Court, architects Childs Bertman Tseckares chose to commission an exact replica of a chair that had served in the court for its first 100 years. Re-creation of this elegant design called for the old-world craftsmanship of Eustis Chair. And in order to make sure that the new chairs will be in service for many decades to come, the chair is engineered with our proprietary Eustis Joint®.
