Depth: 24"
Sitting Depth: 18"

Fisher Heck Architects of San Antonio did a restoration in 2014 of the elegant 19th century Bexar County Courthouse. They liked the look of our Bainbridge Island stacking chair, but wanted it wider. We added 1" to the width, and were pleasantly surprised how little the great look of this chair changed, and how much the comfort was increased. The Bainbridge Island II still stacks 6-8 high, and still comes with our remarkable 20-year warranty.
