

Claremont II

Stacking

(Available in Original, 10-60, and Wide)

SPECIFICATIONS

Height: 38"
Seat Height: 18"
Width: 22"
Depth: 21"
Sitting Depth: 18.5"

The Claremont II is a 1" wider version of our very successful Claremont design. Because the seat on a stacking chair must be narrower, some customers have asked us for a wider stacking chair for additional comfort; we have found that just one inch makes a nice difference. The wider Claremont II is well suited for member dining or other applications where seating density is not critical. The Claremont II also comes with the same 20-year warranty as all of our other stacking hardwood chairs.
