Arm Height: 26"

The Merrimac is a slight design variation on the Bainbridge Jr. chair, requested by Boston architects Amsler, Mashek, MacLean for the Merrimac Public Library. The top back of the chair and the tops of the back posts are curved instead of square. This seemingly minor change has a significant affect on the overall look of the chair, complete with our Eustis Joint®, the Merrimac comes with our 20 year warranty.
