

# Oberlin

## SPECIFICATIONS

Height: 40"  
Seat Height: 18"  
Width: 18.75"  
Depth: 19.5"  
Sitting Depth: 17.5"

The Oberlin chair was designed in collaboration with Boston architects Payette Associates and provided a design bridge between two off-the-self alternatives. Its curved back and graceful back slats and back posts give it a delicate elegance as well as easy comfort. The Oberlin can be produced in other American hardwoods and finished in a variety of stains.
