The designers working on a new library for Cal State–Fresno liked the comfort and elegance of our Jenkins chair, but wanted a 2-position sled. Using our proprietary Eustis Joint<sup>®</sup>, it was a simple matter to make the modification, and the resulting chair is one of the most attractive sled-based chairs we have seen. And like our Jenkins chair, the comfort is second to none! The Jenkins is also complete with our 20 year warranty protecting against joint failure.
