

Northampton

SPECIFICATIONS

Height: 39"
Seat Height: 18"
Width: 19"
Depth: 24"
Sitting Depth: 18"

A friend in the library business asked if we could mix hardwood species for our popular Charleston chair, and the Northampton was the result. We recommend a natural finish for this chair, as shown, in order to emphasize the natural beauty of the two contrasting hardwoods. This treatment would also work well with Cherry and Walnut, and would also look great on many of our other chairs. In addition, the Northampton is complete with our Eustis Joint® and comes with a 20 year warranty.
