

Tall Edison

SPECIFICATIONS

Height: 38"
Seat Height: 18.5"
Width: 17.5"
Depth: 19"
Sitting Depth: 16"

The Tall Edison chair adds height and presence to our reproduction of Thomas Edison's original workshop and laboratory chair. Bowdoin College chose this chair for their largest dining hall, Thorne Hall. The Edison Chair is manufactured to order in our American factory, and is offered only in American Ash, but can be stained to match most other hardwoods. Constructed with our traditional mortise and tenon joinery, the Tall Edison also comes with a 10 year warranty.
