This stackable chair was designed for the University of the Virginia's Special Collections Library, and represents our newest and most contemporary stackable chair. NYC architect Ronnette Riley wanted a chair with narrow rails and no stretchers that could withstand the rigors of daily library use. We used our proprietary Eustis Joint[®] throughout the chair, and were able to achieve this elegant design that is both lightweight and durable. It also comes with a 20 year warranty!

Virginian Arm
